**OUR SETTING**

**We are located in the school bungalow. Our setting consists of one large room where children of all ages socialise and mix. We have a wide range of construction, crafts and game activities available.**

Our fully dedicated team encourage and support all our children to ensure they enjoy there time with us.

Children attending our setting will all be in the same room and will be aged between 4 and 11 years of age.

Each session we provide a range of snacks for all children.

**Activities**

We offer a wide range of activities for the children to enjoy.

We have a indoor classroom set up with crafts, construction, colouring, role play and games. Outdoor sports and activities are also offered in our outdoor area.

We aim to plan activities and crafts to the children's interests and regularly involve the children with our planning.
