

Thinking about a career in teaching?

Join us for our Online Teacher Training Information Event
before applications open in early October!

This relaxed, interactive session is the perfect chance to learn what training to teach really looks like with Exceed SCITT—from our course structure to school placements to what everyday life as a trainee teacher is actually like.

We'll walk you through the whole process, help you understand your options, and answer any questions you may have.

It's free, informal, and designed to help you decide if teaching is right for you.

Monday 28th September 6.00pm – 7.00pm
